Download Autodesk AutoCAD 2010 Professional Registration Code.Q: Sending/ receiving variables from multiple fragments I have this problem with sending and receiving variables from multiple fragments in one activity. Each fragment is a different url and the content of these url's are transferred from an url server. The problem is when I try to change the content of the textview in every fragment the text is changed for the first fragment and not for all. This is the code for changing the text in the first fragment: Intent intent = getActivity().getIntent(); String url = intent.getStringExtra
