what happened with the FM2005 iso

---

or where I can get the new version that was recently released? I'm looking at the Sims3 folder on my iso folder and it is very large. Is it just an update or is there a new iso for us? I have been Googling and searching around on the forums, but I could not find any answers. Here is a link to the FM2005 iso file on a site called IsoHunt: If you want to play this game it can be found from this site:Q: How to change a programmatically created page's position on the screen? I'm displaying multiple programmatically created pages on screen. An example is:

```
PROGRAMMATICALLY GENERATED ON
SCREEN SCREEN PAGE : PAGE1
//NEXT TO PAGE2 HERE
PROGRAMMATICALLY GENERATED ON
SCREEN SCREEN PAGE : PAGE2
//NEXT TO PAGE3 HERE
PROGRAMMATICALLY GENERATED ON
SCREEN SCREEN PAGE : PAGE3
//NEXT TO PAGE4 HERE
PROGRAMMATICALLY GENERATED ON
```

---

SCREEN SCREEN PAGE : PAGE4  
//NEXT TO PAGE5 HERE  
PROGRAMMATICALLY GENERATED ON  
SCREEN SCREEN PAGE : PAGE5  
//NEXT TO PAGE6 HERE  
PROGRAMMATICALLY GENERATED ON  
SCREEN SCREEN PAGE : PAGE6  
//NEXT TO PAGE7 HERE

Is there a way to align the programmatically created pages on the screen to make a page stay next to the previous one on screen? A: As far as I know you have to add a custom alignment to the Pages. You can also set the TabStripItems but that is going to be hard to do with the object you've described. If you created the main content of the page programmatically then you will have to add the contents yourself because there is no way for WPF to know how to position the controls when it is created.
