The four-time FIFA World Player of the Year, Gianluigi Buffon, has agreed to talk about “HyperMotion Technology” and the experience of playing Fifa 22 Free Download. You can watch the interview in the Media Space below. “I liked the idea behind FIFA because I loved playing the game, and since I started I’ve grown up watching Fifa. So being with you in this space will be a great moment for me.” – Gianluigi Buffon “I’m very passionate about soccer, and I love to have the honor to be here. “I’ve been with FIFA for a long time and I know the way FIFA works, the way the team works and the way I like to play. I’m very honored to be here and I’m extremely happy to talk to you. “I will tell you my story and hopefully I’ll convince you I’m right.” – Gianluigi Buffon “There are things, like free kicks and penalty kicks, where I’m not a big fan. I prefer some long-range plays and making the ball turn and shoot.” – Gianluigi Buffon “I’ve known about the re-creation since FIFA 17. I’ve used it for various things and when I played FIFA 18 I liked how the ball moved and was not really overly impressed. “In FIFA 19 I liked how it felt when I played and I think I’ll like it even more this time around. It’s quite simple, but that’s something I’ll tell you in my view.” – Gianluigi Buffon “In FIFA 17 I liked when the ball turned, especially in free kicks, but I didn’t like it when they went long. In FIFA 18 I liked it when I played and I liked the feeling of it, but it’s good to be back.” – Gianluigi Buffon “I’ve been with FIFA for a long time and I know the way the team works and the way I like to play. I’m very honored to be here.”
