Rathi kannada online books read free vignana kannada book free download . [ Free Kannada Books Online . Latest Book By Kannada Asstt. Books For Free . Kannada Books at Myreena [MYP] .1. Field of the Invention The present invention relates to a MOS type semiconductor device and, more particularly, to an improved metal gate MOS device. 2. Description of the Related Art One type of semiconductor device is a metal gate metal oxide semiconductor field effect transistor (MOSFET) which has a gate metal layer that is electrically insulated from the underlying semiconductor substrate by a thin gate oxide layer. Such transistors, which are formed in a lightly doped substrate, are well suited for dynamic random access memory (DRAM) applications. Other types of MOSFETs used in DRAM applications include p type MOSFETs and n type MOSFETs. FIG. 1 illustrates a typical prior art metal gate MOSFET 100. The metal gate MOSFET has a p type substrate 102. An n+ drain region 104 is formed in a surface area of the p type substrate 102 that is under the gate metal layer 108. A p+ region 106 is formed in a surface area of the p type substrate 102 that is between the gate metal layer 108 and the drain region 104. A drain contact structure 120 and a gate contact structure 122 are formed in the n+ drain region 104 and the p+ region 106 respectively. The drain contact structure 120 includes a drain metal layer 114, a 1cdb366666

No thanks Try it freeÂ .Q: What is the reason of so many tags being made to a question? I don't know exactly the limit of the number of tags an particular question can have but I see (say on the first page on the mobile site) a question where the number of tags exceeds the number of questions to be answered (which is quite a bit more than 10). And obviously, I don't think that SO wants to make people write the same question with different tags. What is the reason and what is the correct solution to avoid it? A: Edits
