FIFA 22 introduces an unprecedented feature set, a dynamic dribbling system featuring elements such as sprints, fake changes of direction and off-ball movement, and effects such as controlled inertia. In addition to the definitive gameplay features, FIFA 22 introduces the football atmosphere and social features found in our most popular games to our most popular media. Managing your football club in FIFA 22 is easier than ever. Every day, you can meet your players at the training ground, settle on a formation, set your team up, and make strategic decisions on your tactics and tactics. But, unlike the previous FIFA games, you can now rely on your virtual players to make the right decisions on the pitch. There are dozens of ways you can play a match in FIFA 22. It can be as simple as starting with a set formation, or as involved as completely customizing your team strategy using up to 22 player attributes. No matter what you're looking for, there's a way to win. In FIFA 22, the fundamentals of the beautiful game are completely new. Teams now train differently from one game to the next, and the high intensity and high skill required to play with real, realistic challenges are no longer a mystery. Here's some of the gameplay innovations found in FIFA 22 that add to the already stunning experience:

- Development - FIFA 22 allows you to manage your entire club, from initial development to scouting to training to progression. You can even manage team finances and develop your players' attributes.
- Tactics - Formations are customizable. As you build your team, you can switch from 4-2-3-1 to 4-4-2, from 4-3-3-1 to 3-4-3, from 4-4-2-1 to 4-2-4, or even switch to 4-3-2-1 or 5-3-2. You decide your formation when your players are on the pitch.
- Tactics - Set your tactics before the game and change them at halftime. Over the course of the match, you can adjust your tactics to win, and you can even use randomized tactics.
- Dribbling - Using the ball in tight spaces, you can run your opponent off the ball. Dribbling with the right speed and angle will allow you to run directly toward a defender, or fake out a defender to create space and space to drive towards a teammate.
- Off-ball Movement
